PROFILE SUMMARY

- Innovative and results-driven Senior Full Stack Engineer with 4+ years of hands-on experience in architecting, developing, and deploying scalable enterprise web applications. Specialized in .NET, C, ASP.NET MVC/Core, Angular, and cloud-native development on AWS. Proven expertise in end-to-end solution architecture, RESTful API design, secure authentication flows, application deployment using Docker and CI/CD pipelines, and building AI-driven features integrated with GPT and other LLM providers. Strong background in SQL Server, MySQL, and MongoDB optimization, combined with the ability to deliver robust, user-centric solutions. Adept at collaborating with cross-functional teams to drive impactful results, I excel in designing scalable systems and contributing to high-performance, modern engineering environments.

EXPERIENCE

- **Senior Software Engineer (E3)** October/2021 – Present
PatSeer Technology Pvt. Ltd, Pune
 - **Full Stack Development:** Led the development of enterprise-grade web applications using .NET and Angular, delivering scalable and high-quality solutions that met key product requirements.
 - **Solution Architecture:** Designed architecture for core modules including API workflows, data models, caching flows, microservice boundaries, and integration patterns to ensure scalability, performance, and security.
 - **Backend Expertise:** Developed robust backend systems with .NET, C#, and ASP.NET MVC/Core, implementing optimized, scalable, and secure business logic layers.
 - **Frontend Development:** Built responsive and user-centric interfaces using Angular, TypeScript, HTML, and CSS to ensure smooth, intuitive user experiences.
 - **API Design & Development:** Engineered RESTful APIs enabling efficient communication between frontend and backend systems, significantly improving reliability and performance.
 - **Application Deployment:** Deployed Angular applications, .NET APIs, and multiple internal tools using Docker, CI/CD pipelines, and automated build workflows for consistent and fast releases.
 - **Cloud & Infrastructure:** Managed deployment pipelines and workloads using AWS services including S3, SQS, Lambda, and EC2 to enable scalable and event-driven architectures.
 - **Database Management:** Managed and optimized SQL Server, MySQL, and MongoDB databases, improving query efficiency and ensuring reliable data operations.
 - **Team Collaboration:** Collaborated closely with cross-functional engineering, QA, design, and product teams, providing technical insights and driving project success.
 - Successfully delivered multiple full-stack features end-to-end, demonstrating ownership across the entire development lifecycle—from requirement analysis and architecture design to implementation, testing, deployment, and maintenance.

SKILLS

- **Programming Languages:** C#, JavaScript
- **Frameworks & Libraries:** .NET, .NET Core, ASP.NET MVC, Angular 18, AngularJS, jQuery
- **Web Technologies:** HTML, CSS, Bootstrap
- **Databases:** MongoDB, MySQL, Pinecone
- **Cloud Services:** AWS (Lambda, Cognito, EC2, ECS, S3)
- **Authentication & Security:** Integrated authentication with Google, Microsoft, Facebook, and a custom SSO solution, worked with JWT-based authentication

PROJECTS

- **PatSeer – AI-Driven Patent Research Platform**
Organization: PatSeer Technology
Project Description: PatSeer is an AI-driven patent research platform offering advanced capabilities for patent search, analytics, project management, and collaboration. It enables efficient and comprehensive patent searches while supporting powerful analytics and workflow automation.

Key Contributions:

- Developed secure multi-provider authentication using .NET Core, integrating Google, Microsoft, Facebook, and Custom SSO with support for Two-Factor Authentication (2FA).
- Designed and deployed RESTful Web APIs using ASP.NET Core MVC and Docker, enabling scalable integration with Angular-based applications.
- Built responsive, user-friendly UI in AngularJS to streamline patent search and analytics.
- Optimized MYSQL Server and MongoDB queries to achieve high-performance data retrieval in large-scale environments.
- Managed authentication and authorization workflows to ensure secure access to sensitive IP data.
- Led database migration initiatives to support system scalability and data integrity.
- Implemented Docker-based deployment strategies ensuring smooth CI/CD and maintenance cycles.

- **IP8 – AI-Powered IP Intelligence Platform**

Organization: PatSeer Technology

Project Description: IP8 is an enterprise-grade IP intelligence and automation platform that enhances patent search, portfolio analysis, and monitoring using AI-driven insights. It supports scalable cloud-native processing, collaborative workflows, and seamless integrations for legal and R&D teams.

Key Contributions:

- Designed end-to-end solution architecture, authored SQL schema, and built the Angular application foundation for long-term development.
- Implemented credit management systems and integrated payment gateways using Razorpay and Stripe for secure, reliable billing operations.
- Built AI-driven features by integrating GPT, Sonnet, Anthropic, and Tavily APIs with robust prompt engineering and controlled inference flows.
- Developed modular tools and RESTful services using .NET Core with a focus on scalability and maintainability.
- Deployed Angular applications, .NET APIs, and supporting tools while configuring schedulers for automated jobs and background processing.
- Led AWS cloud workloads leveraging S3, SQS, and Lambda to build serverless pipelines, scalable storage, and event-driven workflows.

EDUCATION

- **Master of Computer Application**, RCP Institute of Management Research and Development, Shirpur, 2022
CGPA - 9.70
- **Bachelor of Computer Application**, RCP Institute of Management Research and Development, Shirpur, 2020
CGPA - 9.65

ACHIEVEMENTS

- **Employee of the Quarter (3x):** Awarded Employee of the Quarter twice at PatSeer Technology Pvt. Ltd. for exceptional performance, leadership, and contributions to key projects.
- **Market-Capturing Feature Deployment:** Successfully deployed a high-impact feature that significantly contributed to market penetration and customer acquisition, enhancing the company's competitive edge.
- **University 2nd Ranked Student:** Achieved 2nd rank in the university during my MCA program, demonstrating academic excellence and a strong commitment to my studies.

ADDITIONAL DETAILS

- **Languages:** English , Hindi , Marathi.
- **Top Performer in PoC and R&D::** Consistently recognized for good in Proof of Concept (PoC) development and Research & Development (R&D) tasks.
- **Strengths:** Self-motivated learner, Adaptability, Time management, and Attention to detail.

DECLARATION

- I confirm that the information provided in my resume is factual and precise to the best of my knowledge.
