Professional Summary

Front-End Developer | Angular Developer | UI Developer with 4+ years of experience building scalable, high-performance web applications using Angular 2+ (up to Angular 16), TypeScript, RxJS, and NgRx. Skilled in developing reusable components, optimizing load times, and integrating RESTful APIs. Adept in Agile, CI/CD, and cloud-based deployments (Azure, AWS). Proven track record of reducing load times by 30%, mentoring junior developers, and delivering user-friendly solutions for enterprise clients.

Technical Skills

- **Frameworks & Libraries:** Angular 2+ (14/15/16), RxJS, NgRx, React, Bootstrap, Responsive UI
- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
- **Testing:** Jasmine, Karma, Unit & Integration Testing
- **APIs & Databases:** RESTful APIs, WebSockets, MySQL, MongoDB, PostgreSQL
- **DevOps & Tools:** Git, GitHub, Docker, Azure DevOps, AWS, Grafana, VS Code
- **Methodologies:** Agile (Scrum), CI/CD, Code Reviews, Performance Optimization, UI/UX Design

Professional Experience

Software Engineer – LTIMindtree Ltd, Chennai | Aug 2021 – Present

- Reduced Angular app load times by 30% through lazy loading, AOT compilation, optimized change detection and RxJS operators.
- Engineered modular, reusable Angular components with NgRx for state management, improving scalability for 500+ enterprise clients (IoT & Finance).
- Mentored 5+ junior developers and led code reviews, reducing bugs by 40%.
- Configured Dockerized multi-container apps and integrated Grafana dashboards with MySQL & APIs for real-time KPI tracking.
- Collaborated with cross-functional teams to ensure CI/CD pipelines on Azure DevOps and AWS deployments.
- Tech Stack: Angular, RxJS, NgRx, TypeScript, REST APIs, Docker, Grafana, MySQL, Azure DevOps, AWS

Front-End Developer (Freelance & Internships) | Jul 2020 – Jul 2021

- Designed and delivered responsive websites for local businesses using HTML, CSS, JavaScript, and Angular.

- Built Angular applications with REST API integration and performance optimization.
- Collaborated with remote teams using Git for version control.
- Tech Stack: Angular, JavaScript, HTML5, CSS3, REST APIs, Git

Key Projects

- Mines Platform (IoT): Developed real-time dashboards & charts for sensor data, implemented multi-tenant architecture, and streamlined onboarding with REST APIs.
- Tech: Angular, RxJS, REST APIs, MySQL, Grafana
- Enterprise Data Dashboard (Finance): Built Angular dashboard with WebSockets for financial analytics, enabling real-time KPIs and data-driven decisions.
- Tech: Angular, WebSockets, PostgreSQL

Achievements

- Delivered 5+ production-grade Angular applications with measurable performance gains.
- Led Angular best-practices workshops, improving team efficiency and code quality.
- Recognized for proactive problem-solving and cross-functional collaboration.

Certifications

- Microsoft Certified: Azure Fundamentals, Azure Data Fundamentals
- Mindtree Certified Secure Delivery .NET Developer
- Angular Interactive Foundation Course – Mindtree

Education

B.E. – Computer Science Engineering, CGPA- 7.4
Dr. Sivanthi Aditanar College of Engineering | 2017 – 2021
