Professional Summary

Full Stack Software Engineer with 3+ years of experience delivering scalable enterprise applications using .NET Core, Angular, and SQL Server. Specialized in designing high-performance REST APIs, optimizing SQL queries, and managing Agile teams to successful project delivery. Certified Salesforce AI Associate, with proven impact in Fintech and Automotive domains. Adept at mentoring teams, solving complex problems, and ensuring measurable business outcomes.

Technical Skills

Frontend: Angular 8+, TypeScript, JavaScript, HTML5, CSS3, Angular Material, PrimeNG, RxJS

Backend: .NET Core, C#, RESTful APIs, Entity Framework Core, ADO.NET, Dapper, Middleware, JWT Authentication, API Security

Database: SQL Server, Query Optimization, Stored Procedures, Indexing, Performance Tuning

Tools & Platforms: Postman, Swagger, IIS, Visual Studio, Git, CI/CD Basics

Methodologies / Design Patterns

- Agile/Scrum
- Dependency Injection
- API Architecture
- Performance Tuning

Professional Experience

Software Engineer – Hinduja Leyland Finance

Chennai, India | Jul 2023 – Present

A financial services company specializing in providing loans and financing solutions

- Led development of the Digilite Two-Wheeler Loan Origination System, serving 50,000+ users with high reliability.
- Managed a 6-member Agile team, achieving 100% on-time delivery of project milestones.
- Engineered high-performance .NET Core APIs with ADO.NET, optimizing SQL Server queries and stored procedures, resulting in a 40% reduction in response time
- Developed reusable Angular components, reducing front-end development time by 25% and improving UI consistency
- Mentored junior developers on coding best practices, enhancing team productivity and code quality by 30%
- Implemented API security and error-handling practices, reducing system errors by 20%

Associate Software Engineer (Internship) – Cloud Destinations

Coimbatore, India | Jul 2022 – Jan 2023

A company focused on delivering cloud solutions and software development

- Developed full-stack modules for Automotive cost-analysis tools (VAVE & Iceberg), reducing client manufacturing costs by 15%.
- Built RESTful APIs and Angular dashboards, enabling real-time data visualization for 100+ client reports.
- Collaborated with cross-functional Agile teams, ensuring 100% sprint completion rate and successful deployment of 3 major releases.
- Optimized SQL queries and ADO.NET layers, improving data retrieval speed by 30%.

Education

Bachelor of Engineering – Computer Science, Anna University, Chennai (2018 – 2022) – 80%

Key Achievements

Enterprise-grade Fintech Application Delivery

- Delivered enterprise-grade Fintech application (Digilite) as project lead, achieving all milestones on time.

SQL Optimization Achievement

- Optimized SQL queries and stored procedures, achieving 40% faster API response and improved system performance.

Cross-Domain Project Contributions

- Contributed to 3 enterprise-level projects across Fintech and Automotive domains, delivering measurable business impact.

Developer Mentorship and Team Efficiency Improvement

- Mentored 6 developers, improving overall code quality and team delivery efficiency by 30%.

Soft Skills

Leadership, Analytical Thinking, Problem Solving, Decision Making, Team Collaboration, Communication, Agile Delivery
