

GANESH MATHIAZHAGAN

Senior Software Engineer | 4+ Years of Experience

📍 Chennai, Tamil Nadu | 📞 (+91) 8668177798 | ✉ mathiganesh010@gmail.com

PROFESSIONAL SUMMARY

Experienced full-stack developer with over 4+ years in front-end and back-end development, specializing in Angular, ASP.NET Core, and modern web technologies. Proven ability to lead development teams, manage codebases, and deliver scalable web applications. Passionate about building performant, user-centric solutions and continuously integrating emerging technologies.

TECHNICAL SKILLS

Frontend: Angular 8-19, RxJS, NgRx, JavaScript, TypeScript, HTML5, CSS3, Bootstrap

Backend: C#, ASP.NET Core, Entity Framework Core, RESTful APIs

Database: MySQL

Tools & VCS: Git

Other: Agile methodologies, Client communication, Task allocation

PROFESSIONAL EXPERIENCE

Sterling Software Private Ltd – Software Engineer - Sep 2024 – Present

- Developed and maintained scalable web applications using Angular 19.
- Led source code management and task delegation across development teams.
- Integrated modern frameworks into legacy systems to enhance performance and maintainability.
- Collaborated with cross-functional teams to ensure delivery of quality software solutions.

Xenovex Technologies – Associate Software Engineer - Nov 2021 – Aug 2024

- Designed and built dynamic front-end applications with Angular.
- Contributed to backend development using ASP.NET Core and EF Core.
- Interacted directly with clients for requirements gathering and feedback.
- Coordinated with team members to manage task allocations and deadlines.

KEY PROJECTS

Project 1: CeyBank Investor Portal

Client: CeyBank Asset Management LTD

Role: UI Developer

Environment: Angular 19, Node.js v22.15.0

Description: Developed and implemented an investor portal enabling users to register and complete KYC procedures online. Post-verification, investors can perform mutual fund transactions including purchases, redemptions, and fund switches. The portal features a dashboard for viewing portfolio details and accessing account statements.

Responsibilities:

- Designed and developed frontend components using Angular 19.
- Integrated backend services using Node.js for investor transactions and data processing.

Project 2: CMRL One Portal

Client: Chennai Metro Rail Limited

Role: Full-Stack Developer

Environment: Angular 13, ASP.NET Core, Entity Framework Core, MySQL

Description: Developed a comprehensive management information system (MIS) for Chennai Metro Rail. The portal facilitates passenger data analysis, fault tracking, fare matrix calculation, complaint management, and station-level reporting.

Responsibilities:

- Designed and developed both frontend and backend using Angular and ASP.NET Core.
- Implemented data-driven dashboards and integrated reports for metro station analytics.

Project 3: Promotional Ride

Client: Chennai Metro Rail Limited

Role: Full-Stack Developer

Environment: Angular 13, ASP.NET Core, Entity Framework Core, MySQL

Description: Created a portal offering promotional metro rides to specific user groups, enabling discounted or free travel to encourage adoption of metro services.

Responsibilities:

- Worked closely with the client for requirement gathering and feedback
- Designed and developed frontend and backend modules using Angular and .NET Core.

Project 4: Revenue Reconciliation System (RRS)

Client: Chennai Metro Rail Limited

Role: Full-Stack Developer

Environment: Angular 14, ASP.NET Web API, Entity Framework Core, PostgreSQL

Description: Developed a centralized revenue reconciliation web application to record daily station-wise revenue entries and enable automated comparison with corresponding bank statement transactions for financial accuracy and auditing.

Responsibilities:

- Designed and developed frontend modules using Angular
- Built RESTful APIs using .NET Web API for revenue data processing
- Implemented station-wise daily revenue entry and reporting modules
- Developed reconciliation logic between revenue entries and bank transactions
- Worked closely with the Revenue Department for requirement analysis and validation
- Ensured data accuracy, consistency, and secure access control

EDUCATION

- Master of Computer Application (MCA)
Hindusthan College of Arts and Science, 2021
- Bachelors of Computer Application (BCA)
Sri Mad Andavan Arts and Science College, 2018

ACHIEVEMENTS

- Rising Star Award 2021-2022 at Xenovex Technologies Pvt Ltd
- Honored for exceptional performance and long-term contribution to the successful overseas Mutual Fund Operations migration for CeyBank (2025) at Sterling Software Private Ltd.
